

## The simple science behind silver ion technology.

Follow the process below to see how SilvaClean® seeks out and attacks micro-organisms on contact

### SILVACLEAN® IS EPA APPROVED TO REDUCE POST-LAUNDRY CONTAMINATION

Demonstrated residual activity with 99.9% kill against major pathogens

*Staphylococcus aureus*  
*Klebsiella pneumoniae*  
VRE  
*ESBL-positive Escherichia coli*

MRSA  
*Candida albicans*  
*Acinetobacter baumannii*

SilvaClean® also is effective in inhibiting the growth of stain- and odor-causing bacteria and fungi (mold and mildew) in products to which it is applied.

# Wash In Infection Control

## Antimicrobial Textile Laundry Treatment

Keep What's Closest Cleanest

## A COSTLY PROBLEM

THE ATHLETE ENVIRONMENT IS CONDUCTIVE TO INFECTIONS. STAPH AND MRSA ARE OCCUPATIONAL HAZARDS. SPORTING TEXTILES TRANSMIT PATHOGENS.

### By the Numbers The risk is everywhere

**40H**

Avg. weekly no. of hours spent by an athlete in gear

**10X**

The chances of football players carrying MRSA compared to general public

**50K**

Minimum spend to treat a MRSA infection

## INFECTIONS IMPACT Performance, Brand, Financial

## A CUTTING-EDGE SOLUTION

SILVACLEAN<sup>®</sup> TRANSFORMS EVERYDAY CLOTHING USED IN SPORTS INTO GERM-KILLERS, INFECTION FIGHTERS AND HEALTH PROTECTORS

SilvaClean<sup>®</sup> infuses pure silver ions into fabrics during the laundry rinse cycle where they bond with fabrics to kill and keep killing pathogens, mold and mildew while reducing odor and static. This new standard of textile care leaves fabrics with lasting pathogen and germ-killing properties even after laundering (in use, storage and handling) while improving the environmental hygiene.

### Antimicrobial

Kills pathogens and inhibits growth of bacteria mold and mildew

### Water-based, anti-odor, anti-static

Creates no perceptible difference in the look and feel of your textiles

### Cost-effective

Treats all existing textiles, seamlessly integrates into existing laundry workflow

## THE SMART SILVACLEAN<sup>®</sup> SYSTEM

The SilvaClean<sup>®</sup> System is a dispensing device enabled by an Internet of Things (IoT) that doses SilvaClean<sup>®</sup> chemistry onto textiles during the laundry rinse cycle

SILVACLEAN<sup>®</sup> IONIC SILVER DISPENSING MACHINE

24/7 CLOUD MONITORING FOR QUALITY ASSURANCE

CONNECTS TO ANY LAUNDRY SYSTEM

TRANSFORMED ACTIVE ANTIMICROBIAL GEAR
