

## Elevate the quality of clothing with the assurance of SilvaClean®

SilvaClean harnesses the natural antimicrobial power of silver to provide a gentle, yet powerful anti-germ shield to fabrics.

Applied Silver: Your B2B Partner

- Can be applied to all launderable items such as cloth face masks, clothing, linens, etc. as a finishing step in the manufacturing process
- Laundering products after assembly with SilvaClean assures that they are maintained clean and germ-free as they are delivered to customers
- Added by rinsing in through laundry process via the SilvaClean dosing system
- Patented, EPA-approved, water-based ionic silver treatment
- Protects fabrics from growth of bacteria, mold and mildew and kills pathogens even as items are stored, transported and used
- Proven in healthcare and sports medicine as a routinely used component in infection control

*For efficacy to be maintained, SilvaClean should be applied during every laundry cycle*

*For detailed product claims, view SilvaClean EPA label: [www.appliedsilver.com/epa-registration/](http://www.appliedsilver.com/epa-registration/)*
