the door**

#KeepWhatsClosestCleanest

It's time for a new level of clean.

Textiles harbor and spread germs.

Now, more than ever, there is a need to elevate the level of protection against germs.

Antimicrobial

Kills pathogens and inhibits growth of bacteria, mold and mildew

Water-based, anti-odor, anti-static

Creates no perceptible difference in the look and feel of your textiles

U.S. EPA-registered

SilvaClean holds the first and only public health claim (kills disease-causing pathogens) for a residual laundry additive. SilvaClean is effective against MRSA and other antibiotic-resistant pathogens¹.

Implement SilvaClean

An innovative strategy for enhanced hygiene delivered through laundry

Easily applied to a wide range of fabrics: sheets, blankets, robes, towels, pillow cases, table linens, mops, etc

Acts as a protectant against germs as textiles are used, stored and transported

No changes in laundering process

No staff training required

No additional new purchases required

SilvaClean System

Silver ion microdosing technology

SC REVOLUTION IONIC SILVER DISPENSING MACHINE

24/7 CLOUD MONITORING FOR QUALITY ASSURANCE

CONNECTS TO ANY LAUNDRY SYSTEM

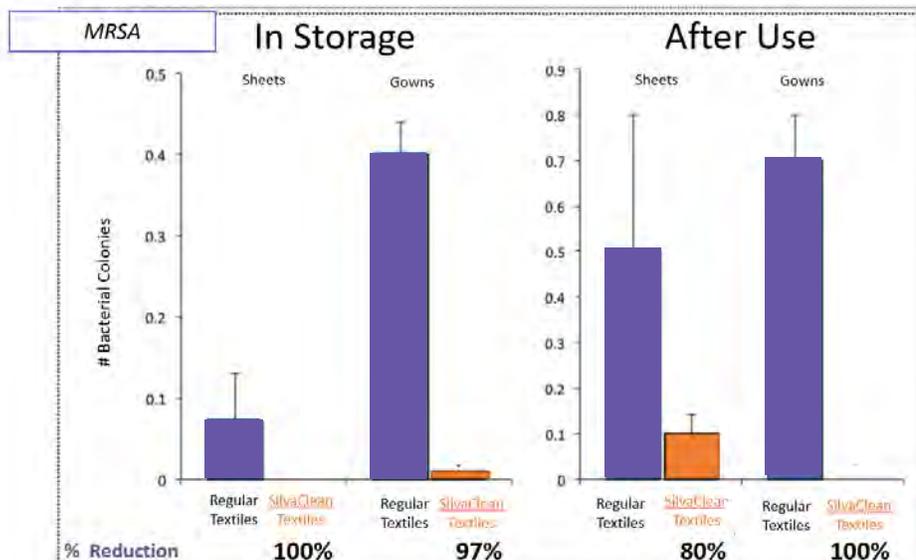

TRANSFORMS TEXTILES INTO ACTIVE ANTIMICROBIALS

Effective in healthcare

- Textiles treated with SilvaClean show reduced levels of pathogens like *S. aureus* (Staph) and MRSA².
- Hospitals routinely using SilvaClean for infection control show clinically significant reductions in infection rates by 43%³.

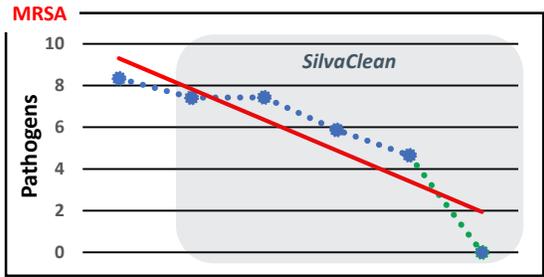

Effective in sports facilities

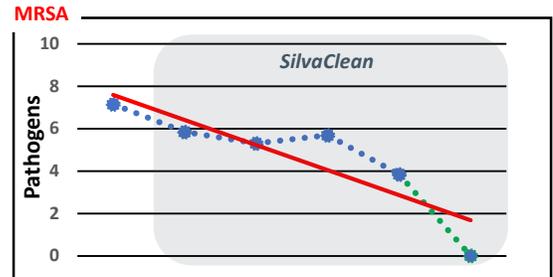

NFL facilities that routinely treat fabrics (e.g athletic gear and towels) with SilvaClean observe reduced amounts of pathogens on these and other surfaces in the immediate environment.

Laundered fabrics

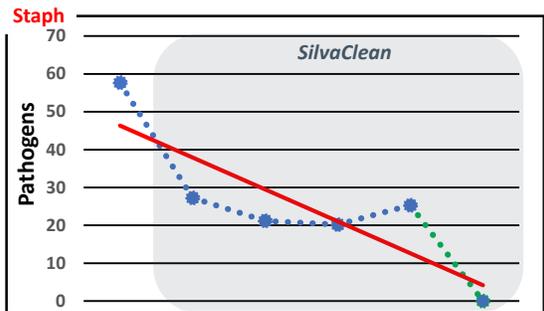

With continuous use

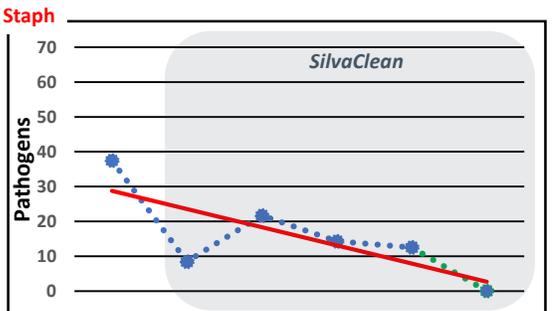

Immediate environment

With continuous use

With continuous use

With continuous use

Provide your guests and staff with an enhanced layer of protection against life-threatening germs

Transform your bed linens, towels and other fabrics into germ-killers and infection-fighters with SilvaClean.
